Quality Assurance & Testing Services

ASM Philosophy

Application Support & Maintenance – Proactive & Predictive Delivery

Services delivered
24x7 through on-off,
shift and team overlaps

Service standardisation
through processes
aligned to ITIL & CMMi

Automation and best
practices to drive year
on year efficiencies

Metrics driven service
and performance
management

Non-linear pricing
models for cost
predictability

Key Tenets

- Right Sizing (Demand v/s Capacity)
- Standardization (Processes)
- Tools & Automation
- Performance Management
- Pro-active & Predictive Delivery
- IT Simplification (Cloud etc.)
- Domain based approach

Services

- L1 support - Helpdesk services
- L1.5 support - Application operations
- Level 2 support
- Level 3 support
- Enhancements and Release Management
- Application Portfolio Optimization
- Transformation Projects

Digital Services

IoT Consulting
(Business case, Platform, Server, Protocol, Connectivity)

Platform Development & Testing
(Application development, Integration, Testing)

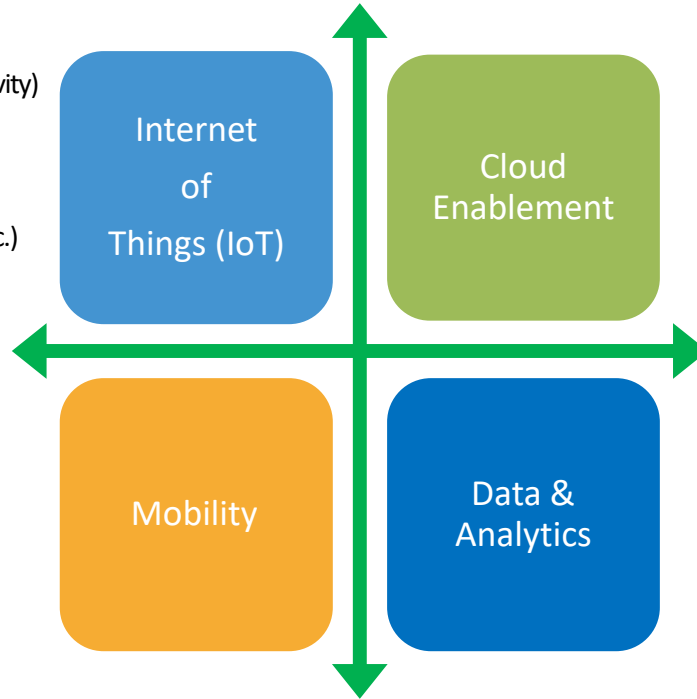

Sensor Integration & Development
(Sensors, Gateways, Network Server, Integration etc.)

Mobile & Wearables
(iOS, Android, Hybrid etc.)

Mobile Payments
(Mobile Banking, NFC etc.)

Mobile QA & Automation
(Mobile Test Automation)

Mobile User Experience
(Design patterns; Mobile First)

Cloud Assessment & Strategy
(Application Analysis, Cloud First Design, CSP Selection)

Cloud Development & Testing
(AWS, Azure)

Cloud Migration
(AWS, Azure, Migration Factory, Application Refactoring)

Cloud Integration & Security
(Data Convergence, Security, etc.)

Data Strategy & Consulting
(Information Management, Data Governance)

Big Data & Analytics
(Predictive Analytics, Text Analytics, etc.)

Machine Learning
(Supervised, Unsupervised, Reinforced)

Natural Language Processing (NLP)
(Text, Speech, Video, etc.)

Business Intelligence (BI)
(Data Visualization, Reporting, Search and Discovery)

Why choose TekMindz?

Engagement Model

Flexibility to choose engagement model

Collaborative and Transparent

Collaboration & transparency through deployed tools

Execution Excellence

Predictable delivery with Quality

Outcome / SLA driven

Commitment to outcome and SLAs driven model

Agile and Flexible

Dynamic response to customer needs

Value Centrality

Proactively adding value to customer business

“right mix of agility, transparency and technical maturity is our DNA”
